

## Task description

**1<sup>st</sup> Task:** The user needs to find the two cars specified below and add both cars to the “Saved” tab. \*The user should check the car information to ensure that it meets the requirement exactly.

**2<sup>nd</sup> Task:** The user is then required to compare and pick the one that he/she likes the most under “Saved” tab(The user should check the photos of the car if available).

**3<sup>rd</sup> Task:** The user should remove both cars from the “Saved” tab.

## Car Info:

**First car:** Honda Civic

**Second Car:** Toyota Camry

**Requisites:** 1) 100 miles from the location(ZIP Code 53715)

2) \$25,000 or less      3) Keyless start **AND** Moonroof feature

4) mileage under 20,000 miles

5) cheapest of all

## Detailed Task Steps(For Adobe XD prototype):

1. From main screen, click Login from the login prompt box and enter the login screen.
2. With pre-entered ID and Password, click login button(The sign-up button will also work as it takes the user to the sign-up page).
3. After login in, the app will bring the user back to the main page.
4. Start the searching process for the first car by clicking “Make”.
5. Choose Honda and then click “Done”.
6. In the model tab, choose Civic and click “Done”.
7. Select the max price 25,000 and click “Done”.
8. After entering location filter, click “Done” at the top right of the keyboard( the one with black bold font). It will enter 53715 as the ZIP Code. Click “Done” at the same position again, it will enter 100 Miles. After these two steps, click the purple “Done” button.
9. Going back to main page, click the “Detailed Filter” button.
10. Choose “Mileage” and select “20,000”, click “Done”.
11. Choose “Features” and the app will pre-select “Moon Roof” and “Keyless Start”.
12. Click Done, the Features Condition tab is already set correctly. Click “Done” again.
13. Click “Complete Filter” button.
14. Click “Search Car” button at the bottom of the main page, the app will shift to the “Search” tab.

15. Click "Sort" on the top right corner and choose "Lowest Price". The first car with photo is the one we want. Click the little heart to save it.
16. Click the "Home" button on the top left corner to return to Main page.
17. Click "Saved" at the bottom, there should be one Honda Civic being saved in the tab.
18. Go back to "Home" tab and repeat step 4 – 15 except changing the car to Toyota Camry.
19. After adding the two cars to the "Saved" tab, click the "Compare" button, it will automatically tick the boxes beside the two cars. Click "Compare" and the app will shift to the compare tab with car information.
20. Click "Done" when finish comparing.
21. After choosing the favorite car, click the little trash can at the top right. Click delete at the bottom to remove both cars.
22. Go back to "Home" tab and exit the app.
23. Tasks complete.
